If the Client acts as Agent, regardless of whether the Client identifies the Principal to the Bank, the Bank shall not be obliged to accept the said Principal as a Client, and consequently the Bank shall be entitled to consider the Client as Principal in relation to the Contract.
 - 3.8. When the Client enters into a Contract Option with the Bank, the Bank will act as counterparty to the Client. The Bank will enter into a contract with a Counterparty, which will be identical in all respects to the contract between the Bank and the Client. The Counterparty, in its turn, will enter into a contract on the relevant exchange (unless the Market Rules require the Counterparty to act as the Bank's agent in which case the Bank will enter into a contract on the exchange). The Client is contracting with the Bank and has no right of recourse against the Bank's Counterparties or any right over contracts between the Bank and its Counterparties.
 - 3.9. The Bank does not provide its Clients with personal investment advice. In the event the Bank provides investment advice, information or recommendations to the Client the Bank shall not be responsible for the profitability of such advice, information or recommendation as further stipulated in Clause 21.4, and the Client acknowledges, recognizes and understands that:
 - 3.9.1. All transactions in exchange-traded investments and many Contracts will be effected subject to, and in accordance with Market Rules;
 - 3.9.2. Market Rules usually contain far-reaching powers in an emergency or otherwise undesirable situation;

 - 3.9.4. The Bank shall not be liable for any loss as further stipulated in Clause 21.3 and suffered by the Client as a result of the acts or omissions of any exchange or clearing house or any action reasonably taken by the Bank as a result of such acts or omissions unless the Bank has exercised gross negligence in connection therewith;

The Client shall assume all risks and liabilities related to the entering into and execution of such agreements with third parties.

4. Dealings between the Bank and the Client

- 4.1. The Client may provide the Bank with instructions via the Trading Platform or orally over the telephone.
- 4.2. The Bank advises the Client to make use of the Trading Platform when submitting instructions, which provides for the swift identification of the Client and thus faster processing of the Client's instructions. If the Client submits an instruction in another manner, the Bank manually verifies the basis of the relevant instruction prior to its processing, and this may likely result in an extended processing time. Placement of instructions by telephone may be subject to higher commissions relative to those applicable for placement of instructions via the Trading Platform.
- 4.3. Oral instructions may be provided by the Client to the Bank on a Business Day during the regular opening hours of the Bank's Trading Desk, which are published on the Bank's website. When accepting oral orders, the Bank may ask to provide proofs of the Client's identity. The Bank reserves the right to refuse accepting oral instructions at its sole discretion.
- 4.4. The Bank shall acknowledge the reception of the instructions via the Trading Platform or orally over the telephone, as appropriate. If the Client has not commented in writing on a confirmation of the reception of the instructions without delay, but not later than within 2 Business Days, save for manifest errors, the Client waives any right of claim to the maximum extent permitted by law for the damages it might have suffered due to the incorrect reception of the order.
- 4.5. When the Bank accepts instructions orally, the relevant employee of the Bank shall place the Client's order on the Trading Platform himself or forward the instructions to executing broker.
- 4.6. The Client shall inform the Bank in writing of the Authorised Persons and shall provide a respective power of attorney granted to such persons. The power of attorney must be acceptable to the Bank in the form and substance. If the Client at any time wishes to revoke such power of attorney, to change the extent of the power of attorney, or to grant a power of attorney to a different person, it shall inform the Bank thereof in writing prior to the change taking place.
- 4.7. The Bank may offer real-time tradable prices to the Client. Due to delayed transmission between the Client and the Bank the price offered by the Bank may have changed before an order from the Client is received by the Bank. If automatic order execution is offered to the Client, the Bank may change the price on which the Client's order is executed to the market value at the time at which the order from the Client was received;
- 4.8. Prices offered by the Bank regarding the sale, purchase or exercise of Contract Options reflect the price of the relevant exchange traded product. Due to delays from the Client's execution of an order or instruction regarding a Contract Option to the execution of the relevant exchange traded product on the exchange, the price as listed on the Trading Platform is subject to change, in order for the Contract Option to reflect the price of the relevant exchange traded product at the time of its execution or exercise (as applicable).
- 4.9. The Bank shall not undertake the risk for any loss, expense, cost or liability suffered or incurred by the Client due to failure of the system, transmission failure or delays or similar technical errors unless the Bank has exercised gross negligence in connection therewith.
- 4.10. The Trading Platform may be available in several versions, which may be differentiated in various aspects including without limitation the level of security applied, products and services available, etc. The Bank shall not be liable to the Client for any loss, expense, cost or liability suffered or incurred by the Client due to the Client's using a version different from the Bank's standard version with all available updates installed.
- 4.11. The Client shall be responsible for all orders, and for the accuracy of all information, sent via the internet using the Client's name, password or any other personal identification means implemented to identify the Client. The Client is liable to the Bank for Contracts executed by use of the Client's password even if such use might have been wrongful.
- 4.12. The Client shall keep passwords secret and ensure that third parties do not obtain access to the Client's trading facilities.
- 4.13. Regardless of the fact that the Trading Platform might confirm that a Contract is executed immediately when the Client transmits instructions via the Trading Platform, it is the Settlement/Trade Confirmation forwarded by the Bank or made available to the Client on the Trading Platform which solely constitutes the Bank's confirmation of execution.
- 4.14. Any instruction sent via the Trading Platform by the Client shall only be deemed to have been received and shall only then constitute a valid instruction and (or) binding Contract between the Bank and the Client when such instruction has been recorded as received and (or) executed by the Bank and confirmed by the Bank to the Client through the Settlement/Trade Confirmation and (or) Account Statement, and the mere transmission of an instruction by the Client shall not constitute a binding Contract between the Bank and the Client.
- 4.15. The Client shall promptly give any instructions to the Bank, which the Bank may require. If the Client does not give such instructions promptly, the Bank may, at its reasonable discretion, take such steps at the Client's cost, as the

Bank considers necessary or desirable for its own protection or for the protection of the Client. This provision is similarly applicable in the situations when the Bank is unable to obtain contact with the Client.

- 4.16. If the Client does not provide the Bank with a notice of its intention to exercise an option, a Contract Option or another Contract, which requires an instruction from the Client at the time, stipulated by the Bank, the Bank may treat the option or Contract as abandoned by the Client. If the Client wishes to exercise an option, Contract Option or another Contract, the Client must provide the Bank with a notice thereof in reasonable time (and within applicable cut-off times) for the Bank to exercise the corresponding right under any contract entered into by the Bank with any Counterparty, equivalent to the Contract Option. Contract Options (put and call) that close one tick or more in the money on the last trading day will automatically be exercised, regardless of whether the Client has purchased or sold the Contract Option. The Client cannot instruct the Bank not to exercise Contract Options that are in the money at expiry, and cannot at any time instruct the Bank to exercise Contract Options that are out of the money.
- 4.17. When dealing with Contract Options, if a market place, on which the relevant exchange traded product is traded, or the Counterparty, with which the Bank has entered into a contract in all respects identical to the Contract entered into between the Bank and the Client, takes any action, which affects the exchange traded product or the contract, which the Bank has entered into with its Counterparty, then the Bank may take any such action with regard to the relevant Contract Option, which the Bank, in its reasonable discretion, considers desirable or appropriate to correspond with such action taken by the market place or the Counterparty, or mitigate any loss, which is or may be incurred by it as a result of such action.
- 4.18. The Bank may (but shall not in any circumstances be obliged to) require confirmation in such form as the Bank may reasonably request if an instruction is to close an Account or remit funds due to the Client or if it appears to the Bank that such confirmation is necessary or desirable.
- 4.19. Pursuant to Republic of Lithuania Civil Code rules regarding power of attorneys the Bank may receive instructions from any person authorised by the Client as well as persons who appear to be authorised. The Bank shall not be liable for any loss, expense, cost or liability suffered or incurred by the Client as a result of instructions from a person who has explicit or tacit power of attorney to give the Bank instructions on behalf of the Client. The Client shall assume the losses which the Bank may suffer as a result of instructions from a person who has explicit or tacit power of attorney to give the Bank instructions on behalf of the Client.
- 4.20. The Bank may refuse to act upon any instruction from the Client or any Authorized Person if the Bank can render probable that the disposal pursuant to the instruction submitted would be in violation of the legislation relevant to the area, usual market practice, including without limitation legislation on money laundering or insider trading, or if the disposal by the Bank's reasonable discretion will put the Client's and (or) the Bank's economic solidity at risk.
- 4.21. In general, the Bank shall act according to instructions as soon as practically possible and shall, as far as trading instructions are concerned, act consistent with the Bank's Order Execution Policy. However if, after instructions are received, the Bank believes that it is not reasonably practicable to act upon such instructions within a reasonable time, the Bank may defer acting upon those instructions until it is, in the Bank's reasonable opinion, practicable to do so or as soon as possible notify the Client that the Bank is refusing to act upon such instructions.
- 4.22. It is possible that errors may occur in the prices of transactions quoted by the Bank. In such circumstances, without prejudice to any rights it may have under the applicable law, the Bank shall not be bound by any Contract which purports to have been made (whether or not confirmed by the Bank) at a price which:
- 4.22.1. The Bank is able to substantiate to the Client was manifestly incorrect at the time of the transaction; or
- 4.22.2. Was, or ought to have reasonably been known by the Client to be incorrect at the time of the transaction.
- In any of the above described cases the Bank reserves the right to either 1) cancel the trade or 2) correct the erroneous price at which the trade was done to either the price at which the Bank hedged the trade or alternatively to the historic correct market price.
- 4.23. Trading strategies aimed at exploiting errors in prices and (or) concluding trades at off-market prices (commonly known as "sniping") are not accepted by the Bank. Provided that the Bank can document that on the time of the conclusion of the trade there were errors in prices, commissions, or in the Trading Platform, and provided the Bank can render probable that the Client, based on its trading strategy or other provable behaviour, deliberate and (or) systematically has exploited or attempted to exploit such an error, the Bank may take one or more of the following countermeasures:
- 4.23.1. Adjust the price spreads available to the Client;
- 4.23.2. Restrict the Client's access to streaming, instantly tradable quotes, including providing manual quotation only;
- 4.23.3. Retrieve from the Client's account any historic trading profits that the Bank can document to have been gained through such abuse of liquidity at any time during the relationship with the Client; and (or)
- 4.23.4. Terminate the relationship with the Client immediately by giving a written notice thereof.
- 4.24. If the Client is more than one person (for example, joint account-holders):
- 4.24.1. The liabilities of each such person shall be direct, joint and several;
- 4.24.2. The Bank may act upon instructions received from any person who is, or appears to the Bank to be, such a person, whether or not such person is an Authorised Person;
- 4.24.3. Any notice or other communication provided by the Bank to one such person shall be deemed to have been provided to all such persons; and
- 4.24.4. The rights of the Bank under Clause 19 shall apply if an event described in Clause 19 shall be deemed to have occurred in respect of any of such persons.
- 4.25. The Client agrees that the Bank may record all telephone conversations, e-mails, internet-based conversations (chat), and meetings between the Client and the Bank and use any such recordings, or transcripts from such recordings, as evidence towards any party (including without limitation to any regulatory authority and (or) arbitration

and (or) court) to whom the Bank, at its reasonable discretion, sees it to be desirable or necessary to disclose such information in any dispute or anticipated dispute between the Bank and the Client. However, technical reasons may prevent the Bank from recording a conversation, and recordings or transcripts made by the Bank will be destroyed in accordance with the Bank's normal practice and applicable legal acts. Consequently, the Client should not rely on such recordings to be available.

- 4.26. When the Client instructs the Bank to enter into a position opposite to one or more of the Client's open positions, the Bank will close out the opposite position in accordance with the FIFO principles unless the position has related orders or unless agreed otherwise.
- 4.27. The Client acknowledges that the Bank may (but has no obligation to) close directly opposite positions. This applies not only when the positions are held on the same Account (including all subaccounts thereof), but also when they are held on separate Accounts (including all subaccounts thereof) of the same Client.
- 4.28. Notwithstanding Clause 4.27 above, if the Client operates several Accounts (or sub-accounts) and opposite positions are opened on different Accounts (or sub-accounts), the Bank shall not close out such positions, unless this is requested by the Bank risk management. The Client is specifically made aware that unless closed manually, all such positions may be rolled over on a continuous basis and thereby consequently incur a cost for such roll-over.
- 4.29. The Bank may, in addition to any other rights it may have under the Terms, or under the applicable law in general, exercise these rights:
 - 4.29.1. The Bank may limit the Client's access to the Trading Platform and require the Client to provide orders and other instruction via telephone or i-line to Bank's Trading Desk where the size of the Client's account value exceeds EUR 5'000'000;
 - 4.29.2. The Bank may refuse to open new Margin Trades, if the size of the Client's account value exceeds EUR 1'000'000.

5. Special note on the use of the Trading Platform

- 5.1. The technical requirements, to which the Client's IT equipment, operating system, Internet connection etc. shall conform, are described on the Bank's website.
- 5.2. The Client shall enter its user ID and password when logging on to the Trading Platform. The Client should memorise the password. Entering an incorrect password five times in a row will automatically terminate the connection and block the user ID. The Bank informs the Client of the termination/blocking and the reasons for it, where possible, before the termination/blocking and, where impossible, – immediately thereafter, unless giving such information would compromise objectively justified security reasons. The Client shall notify the Bank by telephone +370 5 2393 444, without undue delay, on becoming aware of any unauthorised use of the Trading Platform, or if the Client suspects that the password has been misappropriated by a third party, the Client shall immediately block its access to the Trading Platform and then may order a new password. The Bank shall preserve proofs that the Client made such notification.
- 5.3. The Client may block its access to the Trading Platform at any time by contacting the Bank by telephone +370 5 2393 444 during the Bank's regular opening hours, which are published on the Bank's website, or at any time by entering an incorrect password five times in a row. Blocking the access to the Trading Platform prevents other persons from accessing it. Open orders and positions placed on the platform before the blocking will not be affected by the blocking unless the Client specifically requests so, and the Client is responsible for deciding about its positions.
- 5.4. The right to use the Trading Platform is personal, and the Client shall not allow other persons to use its user ID and (or) password. If the Client wants to allow a third party to trade on the Client's account, the Client shall issue a separate power of attorney to the relevant third party, which must be acceptable to the Bank in the form and substance. The Bank shall provide the holder of the power of attorney with a separate personal user ID and password. The holder of the power of attorney shall not use the user ID and password issued to the Client.
- 5.5. The Client can print reports on trading activities and its Account balances from the Trading Platform.
- 5.6. Where the Client has placed an order which it subsequently regrets, the Client may request that the order be cancelled up until the time of execution. The Client is aware that the Bank is under no obligation to cancel the order. A request for cancellation of an order can be made via the Trading Platform or by calling the Bank by telephone +370 5 2393 631. The Client shall be aware that the Bank accepts telephone calls on Business Days only during the regular opening hours of the Bank's Trading Desk, which are published on the Bank's website. An order shall not be considered to be cancelled until the Client has received a written confirmation to such extent from the Bank.

- 14.3. In order for the Bank to quote prices with the swiftness normally associated with speculative trading, the Bank may have to rely on available price or availability information that may later prove to be faulty due to specific market circumstances, for instance, but not limited to, lack of liquidity in or suspension of an asset or errors in feeds from information providers or quotes from Counterparties. If so and if the Bank has acted in good faith when providing the price to the Client, the Bank may cancel the trade with the Client but shall do so within reasonable time and shall provide the Client with a full explanation for the reason for such cancellation.
- 14.4. The Client understands and accepts that it may be necessary for the Bank to manage its available liquidity by separating its clients into different liquidity pools where the pricing and available liquidity in each group may be independent of the other pools/groups. Liquidity separations can become relevant for Clients who, for example: have price agreements deviating from standard, use alternative trading tools (e.g. Application Programming Interface for the use of alternative trading interfaces or platforms (API)), trade outside normal trading hours, trade in odd sizes, make frequent use of resting orders that can require manual attention, frequently transact in multiple products and (or) asset classes, or have other similar features to their trading.
- 14.5. Following the execution of any position with the Client, the Bank may, at its reasonable discretion, subsequently offset each such position of the Client with a position of another Client, or a position with one of the Counterparties or retain a proprietary position in the market with the intention to obtain trading profits from such position. Such decisions and actions may therefore result in the Bank offsetting the Client's positions at prices different – sometimes significantly different – from the prices quoted to the Client, resulting in trading profits or losses for the Bank. This, in turn, can raise the possibility of the Client incurring what may be seen as an implied cost (i.e. the difference between the price at which the Client traded with the Bank and the price at which the Bank subsequently traded with Counterparties and (or) other Clients) due to any profits realised by the Bank. However, this function may also involve significant costs to the Bank if the market moves against the Bank as compared to the price at which the Bank traded with the Client.
- 14.6. The Client acknowledges, recognizes and accepts that the price quoted to the Client includes a spread when compared with the price, to which the Bank may have covered or expected to be able to cover the Contract in a trade with another Client or a Counterparty. Furthermore, the Client acknowledges, recognizes and accepts that the said spread constitutes a remuneration to the Bank, and that such spread not necessarily can be calculated for all

Contracts, and that such spread will not be specified in the Settlement/Trade Confirmation or otherwise revealed to the Client.

- 14.7. The Client acknowledges, recognizes and accepts that the Bank quotes variable spreads on options. The Client is specifically made aware that variable option spreads are affected by actual market conditions, which are beyond the Bank's control. The Bank does not guarantee any maximum or minimum quotable option spreads.
- 14.8. Any commission costs, interest charges, costs associated to and included in the spreads quoted by the Bank in certain markets and other fees and charges will consequently influence the Client's trading result and will have a negative effect on the Client's trading performance compared to a situation if such commission costs, interest charges, costs associated to and included in the spreads did not apply.
- 14.9. Whilst dealing spreads and commissions are normally considered moderate seen in relation to the value of the assets traded, such costs may be considerable when compared with the Client's margin deposit. As a consequence thereof the Client's margin deposit may be depleted by trading losses that the Client may incur and by the directly visible dealing costs such as commissions, interest charges and brokerage fees as well as the not visible costs for the Client described in Clause 14.6.
- 14.10. If the Client is an active trader and is undertaking numerous transactions, the total impact of visible as well as not visible costs may be significant. Consequently the Client may have to obtain significant profits in the markets in order to cover the costs associated with trading activities with the Bank. For very active Clients, such costs may over time exceed the value of the margin deposited. Normally, when trading margined derivatives, the lower the percentage of the applicable margin rate, the higher the proportion of the costs associated with executing a transaction.
- 14.11. The Client is specifically made aware that CFD Contracts may be OTC products quoted by the Bank whilst operating as a counterparty and not traded on a recognized stock exchange. As a result, the description above of the implied, not visible costs related to the Bank's performance as a counterparty may also apply to any CFD Contract.

15. Aggregation and split

- 15.1. The Bank may, in accordance with the Order Execution Policy, aggregate the Client's orders with the Bank's own orders, orders of any associates of the Bank and (or) any persons connected with the Bank including, employees and other Clients, and (or) split the Client's orders when executing them. Orders will only be aggregated or split if the Bank reasonably believes it to be in the best interest of the Client. On some occasions the aggregation and split of the Client's order may result in the Client obtaining a price less favourable than the price which could have been obtained if the Client's orders had been executed respectively separately or upon aggregation.

16. Bank's Counterparties

- 16.1. In order to give effect to the Client's instructions, the Bank may instruct a Counterparty selected at the Bank's discretion, and the Bank shall do so where the transaction is to be subject to the rules of an exchange or market in which the Bank has no membership.
- 16.2. The Bank shall not be responsible for errors committed by such Counterparties unless it is proven that the Bank has not acted with sufficient care when selecting the Counterparty.

17. Introducing Brokers and Tied Agents

- 17.1. The Client may have been referred to the Bank by an Introducing Broker or a Tied Agent.
- 17.2. If the Client has been referred to the Bank by an Introducing Broker or a Tied Agent, the Bank shall not be responsible for any agreement made between the Client and the Client's Introducing Broker or the Tied Agent.
- 17.3. The Client shall be specifically aware that the Client's agreement with an Introducing Broker or a Tied Agent may result in additional costs as the Bank may pay fees or commission to such person.
- 17.4. The Client shall also be specifically aware that the Client's agreement with an Introducing Broker may result in additional costs for the Client because the Introducing Broker can deduct commissions and fees as well as make price or interest/financing rate adjustments for any trade conducted on or allocated to the Client's Account either by the Introducing Broker or the Client.
- 17.5. If the Introducing Broker makes any deductions from the Client's Account according to any agreement between the Client and the Introducing Broker, the Bank has no responsibility as to the existence or validity of such an agreement.
- 17.6. The Bank shall have no responsibility or liability to the Client for following the instructions given by the Introducing Broker. The Bank is under no obligation to supervise or otherwise know or review the payment instructions or any other acts, including without limitation, the trading, of the Introducing Broker.
- 17.7. The Client acknowledges and accepts that frequent transactions may result in a total sum of commissions, fees, price or interest/financing rate adjustments for trades conducted that may be substantial and not necessarily be offset by the net profits, if any, achieved from the relevant trades. The correct assessment whether the size of the total commissions, fees, price or interest/financing rate adjustments for the trades conducted, paid from the Client's Account, makes trading commercially viable, is a combined responsibility of the Client and the Introducing Broker. The Bank only acts as the custodian and principal broker, and therefore is not responsible for the size of the commissions and fees as well as price or interest/financing rates paid by the Client.
- 17.8. Any commissions, fees, price or interest/financing rate adjustments for the trades conducted may be shared between the Introducing Broker or the Tied Agent, the Bank and third parties according to the Introducing Broker's or the Tied Agent's written instructions and (or) at the Bank's discretion.

- 18.3. The Client may enter into separate agreements with Market Data Sources via the Trading Platform to receive broader scope of the Market Data, and the Client shall comply with obligations under those agreements.
- 18.4. Any Market Data available on the Trading Platform is strictly for display on the Trading Platform. The Client shall not redistribute, transfer, reproduce, derive, sell or in other ways exploit the received Market Data. The Client shall not enable third parties to access the Market Data displayed on the Trading Platform in any form, including without limitation, the Client shall not share with third parties logins and passwords enabling to access the Trading Platform.
- 18.5. The Client shall not use Market Data for illegal purposes.
- 18.6. The Client shall provide the Bank and, where applicable, the Market Data Sources, with requested information, and shall ensure that all provided information is complete and correct at all times. If the Bank or the Market Data Sources deem the provided information insufficient, the Bank or the Market Data Sources may adjust the Market Data charges applicable to the Client.
- 18.7. The Bank may store and pass to the Market Data Sources and to their assignees information about the Client, including without limitation, the name and address of the Client.
- 18.8. The Market Data is facilitated without any express or implied warranties. The Bank shall not guarantee the accuracy, timeliness, availability or completeness of the Market Data. The Market Data Source or the Bank may choose to change or discontinue the Market Data services at any time.
- 18.9. The Client hereby acknowledges the intellectual property rights and the rights to legal remedy of relevant markets or any assignee thereof in respect of the Market Data.

22. Confidentiality and the Bank's disclosure of information

However, this shall not apply if a party is obliged to such disclosure under the prevailing legislation, or is obliged to such disclosure to a legislative or supervising authority, or to another person who according to the law is entitled to demand such disclosure, or in order to enable the party to fulfil its obligations pursuant to these Terms.

The Bank shall not be responsible to the Client in connection with any subsequent fluctuations in the level of the relevant Margin Trade. If the Bank closes a Margin Trade under this Clause, such action shall be without prejudice to the Bank's right to contend that such Margin Trade has already been closed by the Bank or has never been opened by the Client. The Bank shall take reasonable steps to inform the Client that the Bank has taken such action as soon as practicable after doing so. Where the Bank closes a Margin Trade or alleged Margin Trade in accordance with this Clause, the closing shall be without prejudice to the Client's rights to open a new Margin Trade, provided that such Margin Trade is opened in accordance with the Terms. - 28.4. Furthermore, the Bank may, in its reasonable opinion, determine that an emergency or an exceptional market condition has occurred. Such conditions shall include, but are not limited to, the suspension or closure of any market or the abandonment or failure of any event to which the Bank relates its quote or the occurrence of an excessive movement in the level of any Margin Trade and (or) underlying market or the Bank's reasonable anticipation of the occurrence of such a movement. In such cases the Bank may increase its margin requirements, reduce the Client's exposure, close any or all of the Client's open Margin Trades and (or) suspend trading.
- 28.5. The Client may not assign its rights or delegate any of the Client's obligations under the Terms or according to any Contract to others whereas the Bank may assign its rights or delegate its obligations to any regulated financial institution.

- 28.10.2. Operate as a waiver of such right, power or remedy.
- 28.11. No waiver of pleading a default of a clause in the Terms shall (unless expressly agreed in writing by the waiving party) be construed as a waiver of a future breach of the same clause or as authorising a continuation of the particular breach.
- 28.12. The Client hereby ratifies all transactions with the Bank effected prior to the Client's acceptance of the Terms and agrees that the rights and obligations of the Client in respect thereto shall be governed by the Terms.
- 28.13. By accepting the Terms on behalf of a corporation or other legal entity, the signatory represents and warrants that it is authorised to act on behalf of such corporation or legal entity and to bind the same to the Terms and all obligations arising hereunder. If at a later stage it becomes apparent that the signatory has not been duly authorised to bind the corporation or legal entity, the Bank may seek restitution from such person. Furthermore, the signatory shall indemnify the Bank against all liabilities, losses, damages, costs and expenses in relation to any claims or actions brought against the Bank as a result of the signatory claiming to be authorised to act and bind any such corporation or legal entity.
- 28.14. The Client shall be able to communicate with the Bank in Lithuanian, English or any other language as the Bank may offer from time to time. The Bank may communicate with the Client in Lithuanian, English or any other language agreed between the parties.
